

De Fietsfabriek

De Fietsfabriek collection 2011

“Unique, customized and handmade bicycles.”

www.defietsfabriek.se

Do you want to stand out ?

Do you want a high-quality customized bike?

Then it's time for a bike from De Fietsfabriek.

Bikes from De Fietsfabriek are easy to identify: each model is an unique work of art.

4 reasons to choose a bike from De Fietsfabriek!

- Every model is lovingly handmade;
- We only use high quality materials and parts, which guarantee you life - long biking pleasure;
- You can customize your bike any way you like;
- Every bike is unique and readily recognisable and therefore less likely to be stolen.

De Fietsfabriek is the only company that customizes your bike the way you want.

What does your dream bike look like?

Uniquely Fietsfabriek!

De Fietsfabriek distinguishes itself in several ways from other bike manufacturers. Our unique advantages are: customization and safety.

1. Customization

We offer a wide range of customizations such as your name, text or logo on the frame, chain guard or baggage rack. This will be lasered on the steel instead of using stickers or screw on plates. We also offer a range of 41 different RAL colours.

2. Safety

The environment and the safety of active children is on top of our mind when designing our bikes and 'bakfietsen' (box bikes/carrier bikes). They are not just a means of transportation, but also ensure a healthier environment and a safe way of carrying your children around.

Our distinctive safety measures are clearly visible on the cargo 'bakfiets':

Where are our bikes made?

The manufacturing of our bicycle frames takes place in our own factory in Turkey. It is located in Büyükcamili, the birthplace of one of the founders. The factory provides jobs in the small village, offering workers future prospects and continuous training and a good working environment.

Being a Dutch company, sustainability is paramount. We therefore concentrate on an environmentally friendly production process.

After the frames are handmade in Turkey, the bikes are assembled in The Netherlands. Here top brand wheels, handlebars, saddle and accessories, as specified by the customer, are mounted on the bicycle. A final quality check is carried out before the bike is handed over to the customer.

As the entire manufacturing process is under our control we have the flexibility to complete the bike according to the personal wishes of the customer. It also gives us the flexibility to carry out changes and improvements quickly. Each bike is handmade with an eye for detail, quality and durability.

"Your handmade bike with a soul."

For whom?

De Fietsfabriek collection offers solutions for everyone!

'Bakfietsen' in various designs for parents with children, trendy city bikes, practical delivery and shopping bikes and of course the business marketing bike.

What do we offer?

De Fietsfabriek offers a range of colours, texts, names, logos and symbols, which can be lasered on the frame!

Oma ('granny')

The Oma bike is a traditional Dutch bike and one of our most popular models for many years. It is a sturdy bike which provides an elegant and comfortable cycling posture. A real traditional Dutch Oma bike combined with today's practical applications .

- Front rack integrated with frame
- Stainless steel finish
- Complete phosphated and powdercoated frame
- Strong steel chain guard and baggage rack
- Stainless steel KMC chain lock
- Strong wheels with extra thick spokes
- Battery powered lighting
- Certified Abus fixed rear wheel lock

Available in the implementation models:

- Basic model with coaster brake
- 5 gears, coaster brake & front drum brakes
- 7 gears, coaster brake & front drum brakes

Customize your bike with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour.

FF Cruiser

A trendy bike which offers a very comfortable cycling posture for men and women. The stand-out handlebars and the big tires give the bike a sturdy look.

- Phosphated and powder-coated frame
- Steel chain guard
- Strong wheels with extra thick spokes
- Stainless steel KMC chain lock
- Battery powered lighting
- Stainless steel finish
- Certified Abus fixed rear wheel lock

Available in the implementation models:

- Basic model with coaster brake
- 5 gears, coaster brake & front drum brakes
- 7 gears, coaster brake & front drum brakes

Customize your bike with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour.

Pack Max

The Pack Max is the ideal bike for mother and child. With its reinforced cross frame, strong wheels and heavy duty spokes the Pack Max is suitable for heavy loads. An easy and safe way to carry your child in the child seat and your groceries in the crate in front. The Pack Max is available in two sizes: 26 en 28 inch.

- Phosphated and powder-coated frame
- Stainless steel finish
- Front rack integrated with frame: maximum load 40 kg
- Steel chain guard
- Strong baggage rack.
- Aluminium rims, extra thick RVS-spokes
- Stainless steel KMC chain lock
- Battery powered lighting
- Certified Abus fixed rear wheel lock

Available in the implementation models:

- Basic model with coaster brake
- 5 gears, coaster brake & front drum brakes
- 7 gears, coaster brake & front drum brakes

Customize your bike with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour.

Pack Max Duo

The extended edition of the Pack Max is the **ultimate bike for mums**. The extended frame gives you the option to place two child seats on the extra strong baggage rack. The Pack Max Duo has a longer wheel-base than a normal bike, which prevents it from tilting backwards. The Pack Max Duo gives the freedom to carry two children and your groceries in the box in front.

- Frame height PM26 inch
- Frame height PM28 inch
- Phosphated and powdercoated frame
- Stainless steel finish
- Steel chain guard
- Strong baggage rack
- Stainless KMC chain lock
- 5-speed SRAM gear

Accessories like this handy crate or an additional saddle construction, check pag. 21

Customize your bike with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour.

Big Wim

The ideal bike for very tall men. It is no longer necessary to cycle with bent back thanks to the lengthened and heightened frame. This sturdy and rock-solid model can take up to 150 kg.

- A phosphated and powder-coated frame
- Stainless steel finish
- Front rack integrated with frame: maximum load 40 kg
- Steel chain guard
- Strong baggage rack
- Strong wheels with extra thick spokes
- Stainless steel KMC chain lock
- Battery powered lighting
- Certified Abus fixed rear wheel lock

Available in the implementation models:

- Basic model with coaster brake
- 5 gears, coaster brake & front drum brakes
- 7 gears, coaster brake & front drum brakes

Accessories like this handy crate or an additional saddle construction, check pag. 21

Customize your bike with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour.

'Bakfiets' classic

This 'bakfiets' is *the* alternative to using a car: children can sit in the front and you will never be stuck in traffic again. Even groceries, pets and other loads can be carried easily in this spacious open box. The frame and wheels are designed to carry heavy loads. The open box seats up to four children or two children and a Maxi-Cosi. This carrier bakfiets is very stable, making it possible to stop and start cycling without having to put your foot on the ground.

- Internal dimension L 34.6" x W 24.4" x H 20.9"
- Total width of the carrier bike: 34.6"
- Phosphated and powder-coated frame
- Stainless steel finish
- Sustainable epoxy coated box with watertight sealed edges, and reinforced with corner profiles. maximum load capacity :330 lbs
- Stainless steel KMC chain lock
- Hydraulic suspension
- Steps for the kids
- Steel chain guard
- Strong baggage rack, maximum load capacity 176 lbs
- Wide *Big Apple* tires from Schwalbe
- Strong aluminium rims with extra thick Stainless steel spokes
- 5-speed SRAM gears
- Coaster brake (rear) & parking brake front wheels
- Parking brake
- Battery powered lighting
- Certified Abus fixed rear wheel lock

Available in the implementation models:

- Basic model: 5-speed, coaster brake & drum brakes
- Extra wide box: 31.5"
- Extra long box: 47.2"

Customize your 'bakfiets' with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour;
- print on box.

BF 18

Leave your car at home: kids, groceries and pets can all fit in the open box. No more traffic jams or parking problems. Much better for the environment and gives you a great workout. The frame and wheels are designed to carry heavy loads. The benches in the open box provide seating for up to 4 children

- Internal dimension L 32.7" x W 24.8" x H 18.9"
- Total width of the carrier bike: 31.5"
- Phosphated and powder-coated frame
- Stainless steel finish
- Sustainable epoxy coated box with watertight sealed edges, and reinforced with corner profiles.
- Maximum load capacity : 330 Lbs

Available in the implementation models:

- Basic model: 5-speed, coaster brake & drum brakes

Customize your FF 16 with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour;
- print on box.

This bow top will keep your children, pets or groceries warm and dry

Filibus

An elegant and compact carrier bike for business or leisure use. The Filibus rides as easily and smoothly as a normal bike but offers you several convenient options. Like the extra large front rack which has a maximum load capacity of 80 kg. As the crate is mounted on the central frame tube you won't experience any difficulty in steering this bike.

- Plastic crate L 28.7" x W 16.5" x H 12.6"
- Maximum load up to 176 Lbs
- A phosphated and powder-coated frame
- Double steering rod
- Stainless steel KMC chain lock
- Stainless steel finish
- Strong baggage rack: maximum load 176 Lbs
- Steel chain guard
- Wide Big Apple tires from Schwalbe
- Strong wheels with extra thick spokes
- 5 speed SRAM gear
- Coaster brake (rear) drum brakes (front)
- Battery powered lighting
- Certified Abus fixed rear wheel lock

Available in the implementation models:

- Basic model: 5-speed, coaster brake & drum brakes

Customize your Filibus with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour.

995

The ideal modern way of family transportation. From now on you'll have a smooth and comfortable ride with your kids and bags in the large box in front of you. The 995 has a low entry step for children. And the low center of gravity makes cycling as easy as on a regular bike. The box is wider than your handlebars, which makes the cargo 'bakfiets' easy to manoeuvre anywhere in the busy city traffic.

- Inside dimension L 26" x W 21.7" x H 17.7"
- Extended version: L 31.5"
- Total width of the cargo 'bakfiets': 25.6"
- Phosphated and powder-coated frame
- Stainless steel finish
- Strong baggage rack, maximum load capacity 176 Lbs
- Steel chain guard
- Sustainable epoxy coated box with watertight sealed edges, and reinforced with corner profiles.
- Maximum load capacity : 176 Lbs
- Strong and stable propstand
- Stainless steel KMC chain lock
- Double steering rod
- Wide *Big Apple* tires from Schwalbe
- Strong aluminium rims with extra thick stainless steel spokes
- Coaster brake (rear) drum brakes (front)
- Additional bench with two 3-point safety belts
- Battery powered lighting
- Certified Abus fixed rear wheel lock

Available in the implementation models:

- Basic model: 5-speed, coaster brake & drum brakes

Customize your 995 with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour;
- print on box.

996

Do you rather cycle with your children to do the shopping instead of taking the car because of the environment, your health or to avoid traffic jams? Carrying two children and your groceries on a normal city bike can be tricky. One child on the back and one on the front of the bike and your grocery bags hanging on the handlebars. Wobbling down the road like a pack mule? Enough! The 996 is the extended version of the 995. The box is 15 inches longer, which gives you the freedom to take your children and the groceries. You'll now have room for extras. And you have the option to place a second bench in the box.

- Internal dimension L 66 x W 55 x H 45 cm
- Extended version : L 80 cm
- Total width of the carrier bike: 65 cm
- Phosphated and powder-coated frame
- Stainless steel finish
- Sustainable epoxy coated box with watertight sealed edges, and reinforced with corner profiles.
- Maximum load capacity: 176 Lbs
- Stainless steel KMC chain lock
- Strong baggage rack max. load cap. 176 Lbs
- Child seat with two 3-point safety belts
- Stainless steel KMC chain lock
- Wide *Big Apple* tires from Schwalbe
- Strong aluminium rims with extra thick stainless steel spokes
- Coaster brake (rear) & front drum brakes
- Double steering rod
- Strong and stable propstand
- Battery powered lighting
- Certified Abus fixed rear wheel lock

Available in the implementation models:

- Basic model: 5-speed, coaster brake & drum brakes

Customize your 996 with:

- your name on the frame, baggage rack or chain guard;
- a logo on the frame, baggage rack or chain guard;
- frame, chain guard, mudguards or baggage rack in a different colour;
- print on box.

Specials

De Fietsfabriek also makes 'specials'. These 'specials' are bikes or 'bakfietsen' that are entirely designed by and for customers with very specific needs and or wishes.

The daycare bike

The daycare bike is a good example. This bike, equipped with an extra large box, gives you the flexibility to carry eight children at the same time. The ideal transport solution for nurseries!

The wheelchair 'bakfiets'

Another example is the wheelchair 'bakfiets'. The wheelchair fits in easily. This way the wheelchair can be taken along on a trike ride.

The wedding bakfiets

Some people have very special wishes. And we take on the challenge to fulfil those wishes. Our wedding 'bakfiets' is the perfect example. Now for rent at De Fietsfabriek to make your special day extra special.

Business customers

De Fietsfabriek offers the business customer a safe and high quality customized marketing bike. These bikes carry your name, logo and customized text on the steel frame of the bike. The bike is not only a means of getting around, but is a brilliant way to communicate and advertise. This gives your organisation a positive, vibrant and green image .

Other advantages of the marketing bike:

- Mobile advertisement or fixed sign;
- Attracts a lot of attention from a broad public;
- Financial advantages when offering or making available to employees.

Come and check out our endless possibilities.....
